THE DIGITAL SOLUTION FOR MAINTENANCE AND YOUR WORKSHOP
Is the whole fleet and all my equipment fully operational? What tasks are upcoming?
SNOWsat Maintain answers all your questions about maintenance – digitally. At the same time, you organize and streamline your operating procedures.

Our practical, intuitive, cloud-based solution tells you everything you need to know. Clearly. In real time. By app. So you have a clear view of everything all the time – from administration through maintenance of your vehicles and your equipment. This is another innovation that grew out of close cooperation with our clients. In the final analysis, they always know best what's important on and off the slopes.

**01 EQUIPMENT MANAGEMENT**
- Manufacturer-independent administration of all vehicles, auxiliary equipment and systems
- Traffic-light status indicator for equipment availability
- Service status display

**02 TASK MANAGEMENT**
